

## Standard Based Grading System

The 3rd grade will be fully implementing the Standard Based Grading System. We will be doing Standard Based Grading for Reading, Math, Science and Social. What do my grades mean?

Criteria for 3, 2, 1

3= Meets Expectation

- I understand the skill with accuracy, but do not go above and beyond.
- I can teach a friend.

2= Developing Standard

- I understand some of the skills.
- I need help to understand.
- I need more practice.

1= Does not meet Standard

- I do not understand the skill and need more practice

According to the Standard Based Grading system, the daily assignments are used as practice and a spot check to see if the students are on the right track. Grades will be taken from the work completed on the assessments for a standard/skill.
